

Encode STREPTOCOCCUS PNEUMONIAE ID Kit

Item code: EIL-B-SCPM

Technology: PCR / Real Time PCR/ PCR

Manufacturer: ENCODE

Size: EIL-B-SCPM-10 Rxns

EIL-B-SCPM-25 Rxns

EIL-B-SCPM-50 Rxns

EIL-B-SCPM-100 Rxns

BACKGROUND:

Streptococcus pneumoniae is a Gram-positive bacterium that is responsible for the majority of community-acquired pneumonia. Pneumococcal disease is caused by *Streptococcus pneumoniae*. Symptoms can include fever, cough, shortness of breath, chest pain, stiff neck, confusion, increased sensitivity to light, and irritability. The urgent need for rapid, accurate, and sensitive methods for the detection of *Streptococcus pneumoniae* is mandatory.

KIT DESCRIPTION: Detection of the *lytA* gene of *S. pneumoniae*.
